

Part Number 150921C

PowerFlow Kit HONDA 400EX

(incl. Air Filter (FR), Wire Cage, Aluminium Flange, Mounting Hardware)

Instructions:

1. Remove the stock air filter and cage from your airbox
2. Cut out the template below, and remove the inner shaded area
3. Place the template inside the airbox, over the round air boot
4. Line up the straight line on the template, parallel with the top of the airbox
5. Using a ¼" bit, drill 3 new mounting holes in the airbox, where the drill points indicate
6. Install the aluminum flange on the inside of the airbox, overtop of the air boot, making sure the Twin Air logo is at the top of the airbox
7. Secure the flange with the provided hardware, making sure to coat the threads of all bolts in Loc-Tite.
